HAMPTON INSTITUTE'S  
SENIOR CLASS

PRESENTS THE

(1964)  
HAMPTONIAN

# Foreword

The task of selecting a theme for the yearbook is indeed a difficult one. Yearbook staffs in the past have wrestled with this problem, and the staff of 1964 was no exception. Its main objective for the selection of a theme was to find a single factor which has affected our lives to the greatest extent.

This was a broad proposition and we realize now that to find such a single objective was an impossible task, because to express the phrases which grew most frequently out of our frustrated attempts, ". . . things have changed so." The key word in this simple familiar is change. Since September, 1960, we have been molded and remolded into ever changing personalities. Let us glance for a moment at some of the multiplicity of changes that have affected us since the year 1960.

Our society has been the major target for change. During the past few years there's been a mobility among classes of people that was not dreamed possible in 1942. As you turn the pages of this book and look at the photographs of members of the graduating class of 1964, no doubt you will recall the active part played by these individuals in bringing about a better way of life for those who live on and around our campus. Magnificent progress has been made because of these various endeavors . . . the seniors experienced change.

The great men of science are forever scheming, studying, experimenting, and testing to advance the media of scientific discovery. In the four year period between 1960 and 1964, you as seniors have seen the great changes that have taken place in space exploration. During the year of 1962, the nation anxiously awaited reports of the propulsion of the first American into space.

The educational world is ever changing and has changed since our freshman year. At the time of entrance, the Baccalaureate Degree represented a major achievement. Seniors have discovered that because of the strenuous academic demands, there is a requirement for more knowledge gained at a faster pace.

Every senior feels that he must, and that it is necessary to go beyond the Baccalaureate Degree, to enrich his own personal life and to keep abreast with the constant changing events of the world.

Accepting the premise that change is inevitable, the 1964 *Hamptonian* Staff has attempted to formulate a frame of reference for the content which follows on the next 206 pages.

Patsy O. Custis

With Our Respects  
We Honor . . .  
Albert Jefferson Wright

If this year is to be remembered for any one thing in the lives of the students of Hampton Institute, it will surely be remembered as the year that Albert Wright did not spend with the class of 1964.

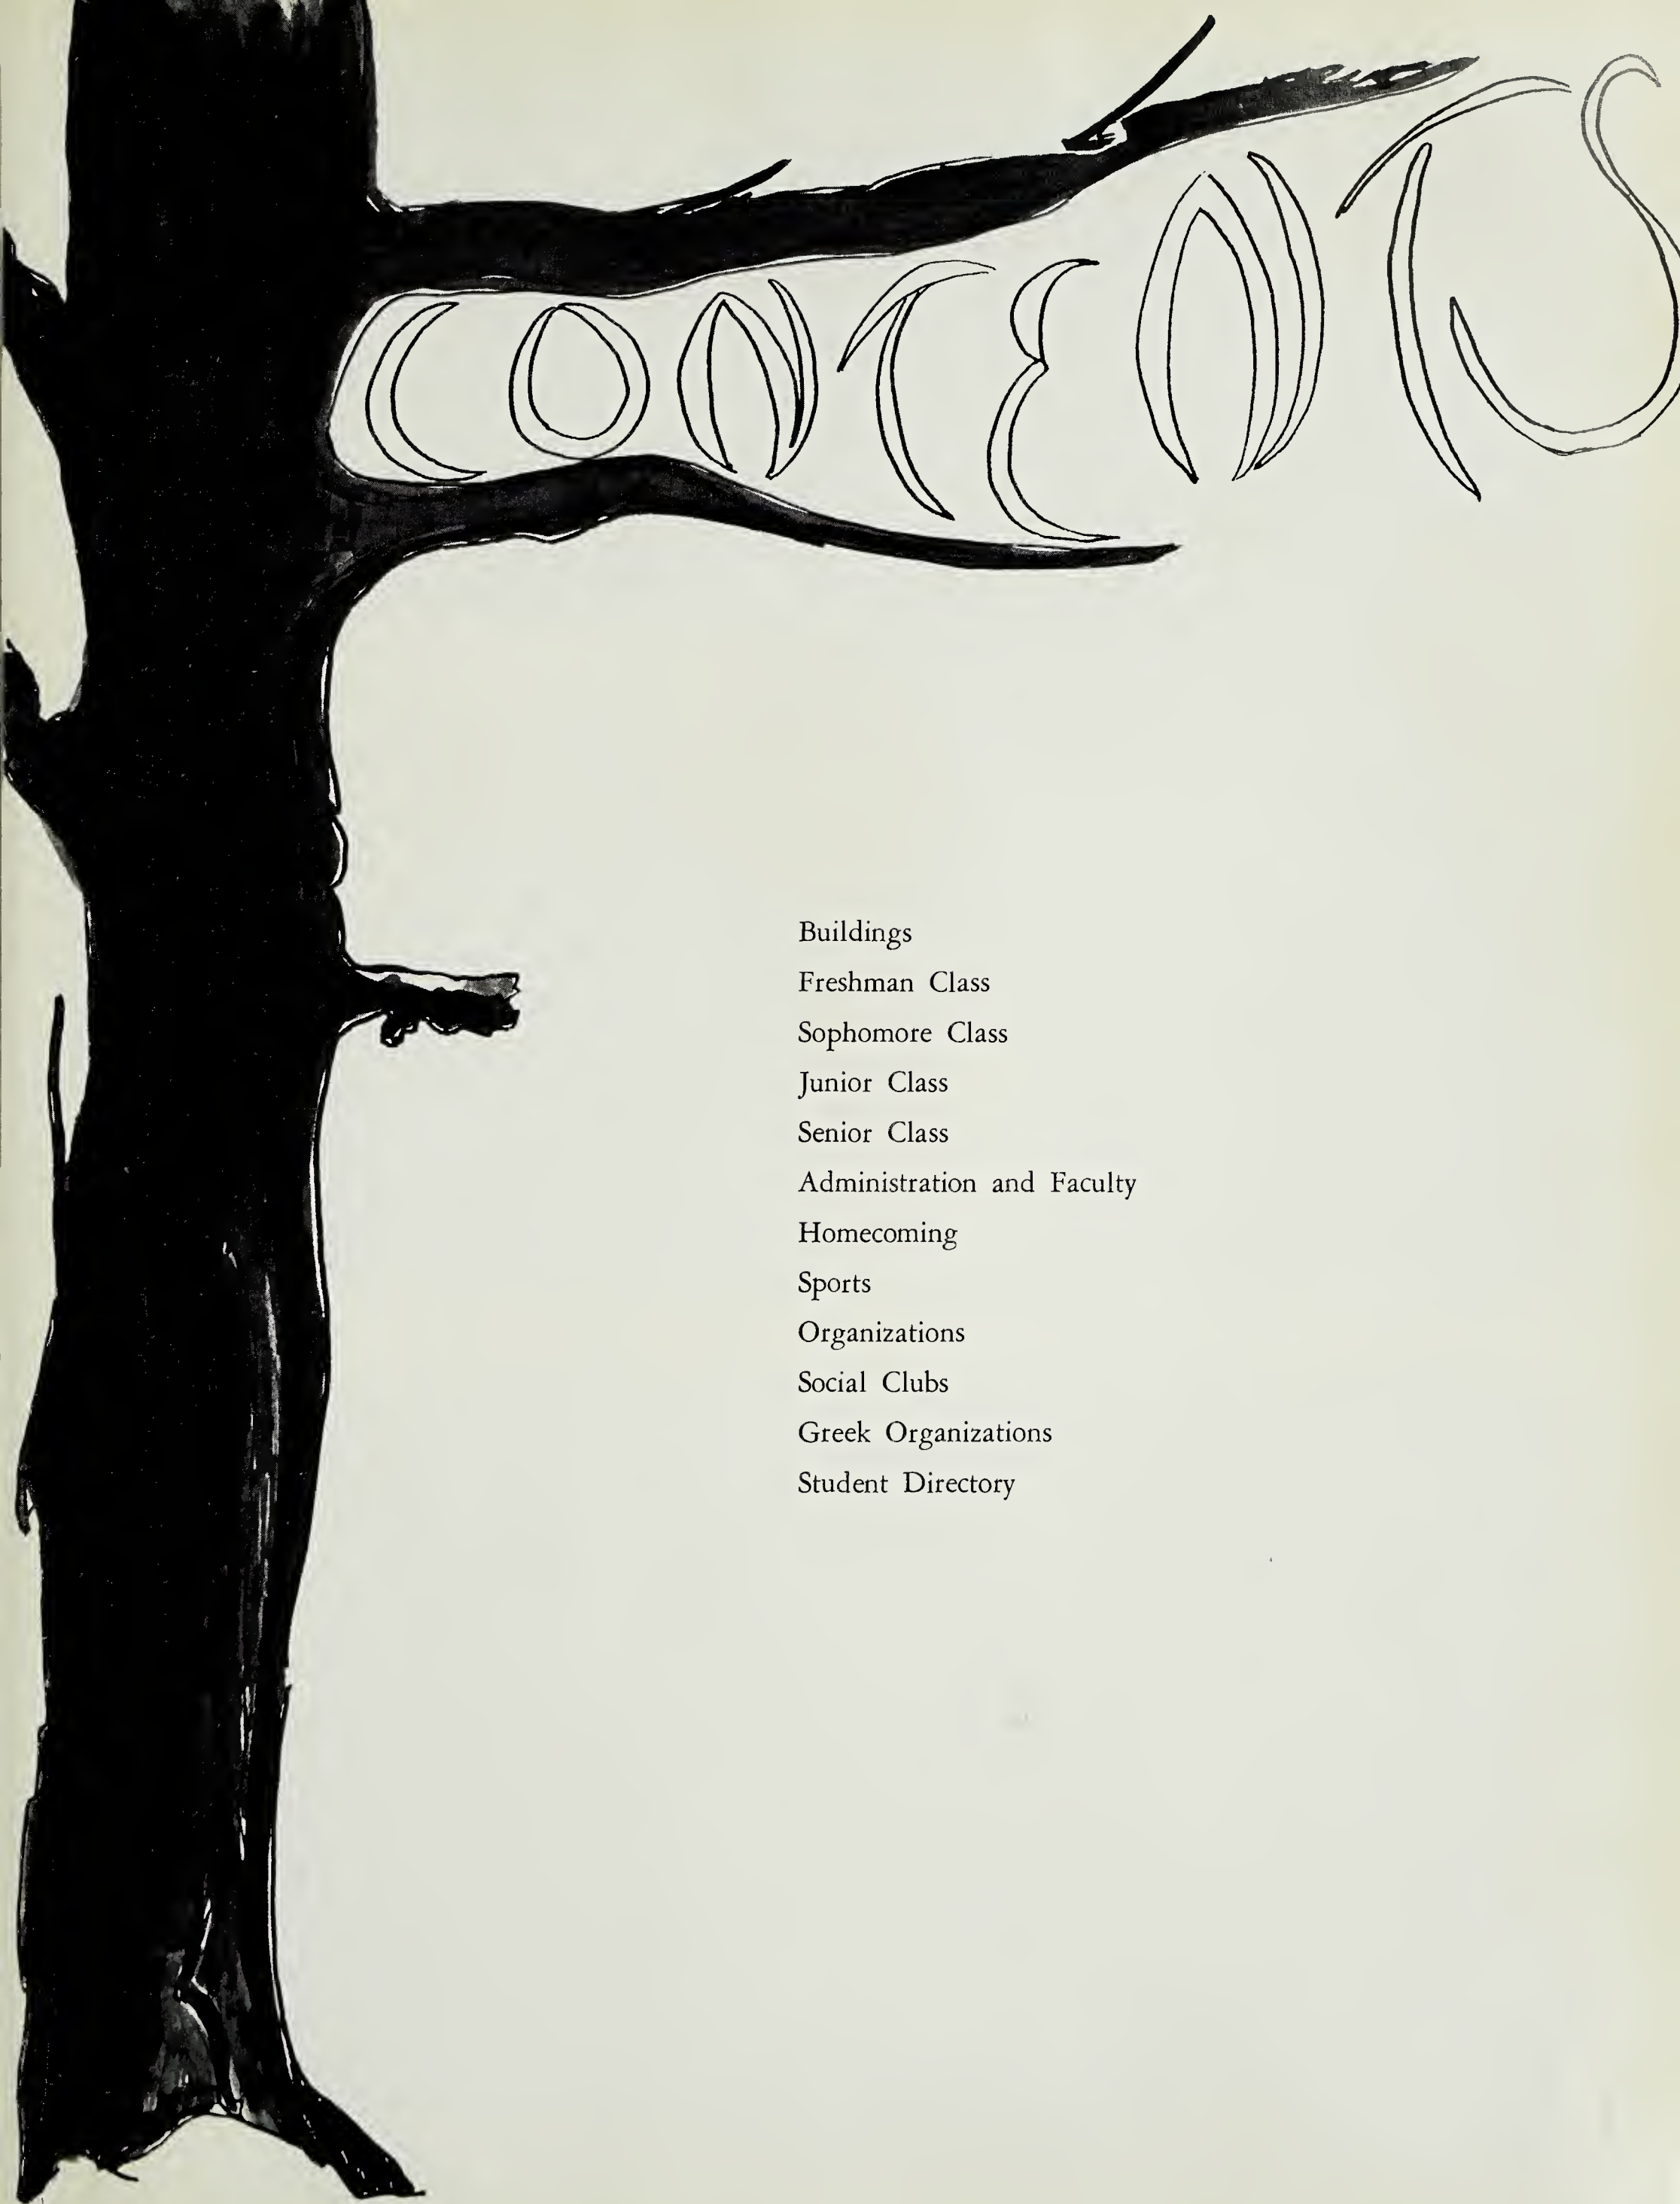

Albert was born on June 10, 1942, to Mr. and Mrs. William T. Wright of Eastville, Virginia. As a little boy Albert was alert, observant, and interested in people. In his later childhood years, Albert served his church efficiently and willingly as secretary of the Sunday School, member of the Junior Choir, and as an usher.

He attended Eastville Elementary School and the Northampton County High School from which he was graduated in 1960. During his high school days, Albert was always a conscientious and serious student. He participated in many extracurricular activities. During his final year in high school, Albert was elected President of the senior class.

In September, 1960, Albert enrolled here as a freshman. For three years he pursued a major in Psychology and a minor in Sociology. For three years we strolled to class with Albert; we chatted with him in the dining hall; we laughed with him in the grill; we hailed him on the "block;" we worshipped with him in the College Chapel.

In August, 1963, death came to Albert Wright. We shall always remember him for the fond memories which he has given us. In appreciation of these many memories, we, his fellow classmates, seek to honor Albert in some way. We wish to share Albert's college days with his family and friends. We give back these memories to Albert: we, the class of 1964, dedicate to Albert Jefferson Wright our book of memories—the 1964 Hamptonian.

## President Holland

### LETTER FROM THE PRESIDENT

Dear Seniors:

It is a most pleasant experience to extend congratulations to the class of 1964 on behalf of the members of the Hampton Family. I have been well aware of your progress, as you entered Hampton Institute in September 1960, which was also my first year. You have participated actively in the progressive programs that have been instituted at our "home by the sea." This has been a part of your educational training.

You are leaving Hampton Institute at an interesting period. The demands of the citizenry for human dignity and equality of opportunity have caused our nation to redefine its patterns and practices in human relations. You will be expected to assume a responsibility in this changing social order as mature citizens. The manner in which you play your role will have national and international significance. Your success will be a means of measuring the effectiveness of the Hampton Institute Program.

I extend to you, on behalf of the Hampton Family, best wishes as you leave this citadel of learning.

Very truly yours,

Jerome H. Holland  
President

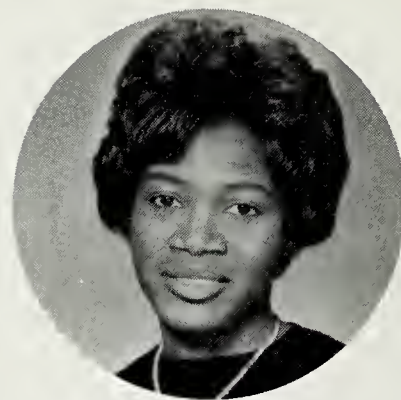

Our President . . .
